DIGESTIVE ENZYME TEST KIT (16 vials) Product Code 8012

An enzyme: "A substance that affects the speed of chemical changes; an organic catalyst, usually a protein" Gerard J Tortora Introduction to The Human Body

Code	Name	Source Of Start Material	Origin & effect	Function
DE 1	Carboxypeptidase	Cow	Pancreas	Peptides into other peptides and amino acids (protein digestion).
DE 2	Chymotrypsin	Cow	Pancreas	Protein into peptides (protein digestion).
DE 3	Deoxyribonuclease	Cow	Pancreas & small intestine	Converts deoxyribonucleic acid nucleotides(DNA) into pentoses and nitrogenous bases.
DE 4	Enterokinase	Pig	Small intestine	Converts inactive trypsinogen into active trypsin in small intestine (protein digestion).
DE 5	Galactosidase/ Lactase	Cow	Small intestine	Converts lactose into glucose and galactose.
DE 6	Lipase	Human	Small intestine	Converts fat into fatty acids and glycerol (fat digestion).
DE 7	Lysozyme	Chicken Egg White	Mouth (saliva), tears and sweat	Destroys bacteria and so helps prevent tooth decay; works to limit the growth of the bacteria that cause infections and diarrhoea, and encourage the growth of good bacteria.
DE 8	Maltase	Baker's Yeast	Small intestine	Converts maltose into glucose.
DE 9	Pepsinogen	Pig	Stomach	Converted by hydrochloric acid into pepsin (protein digestion).
DE 10	Pepsin	Pig	Stomach	Converts proteins into peptides (protein digestion).
DE 11	Peptidase	Pig	Small intestine	Peptides into amino acids (protein digestion).
DE 12	Rennin	Calf	Stomach	Milk protein into casein which allows pepsin to act on it.
DE 13	Ribonuclease	Cow	Pancreas & small intestine	Converts ribonucleic acid (RNA) into pentoses and nitrogenous bases.
DE 14	Salivary Amylase (Ptyalin)	Human	Mouth	Polysaccharides into maltose, which is a disaccharide (carbohydrate digestion).
DE 15	Sucrase	Bacteria	Small intestine	Sucrose into glucose and fructose.
DE 16	Trypsin	Pig	Pancreas	Protein into peptides; activates procarboxypeptidase into carboxypeptidase (protein digestion).

Elastase is in Body Biochemicals 5

IMPORTANT: COPYRIGHT & DISCLAIMERS

The test kits we sell are not intended for diagnosis of any medical condition. Nor do we claim that these vials can be used to cure any medical symptoms or conditions.

This information represents many hours of diligent research over many years and is protected by copyright. Please do not copy more than 200 words, or photocopy all or part to pass on to others (either freely or for gain) without the express permission of the author, Jane Thurnell-Read.

We do not believe that the written information alone provides sufficient information for accurate kinesiology testing or dowsing. Please do not use this information in that way.
